**Subject:** RE: Morton International well logs

I haven't really reviewed the Morton info in depth, but most of the wells are not ideally located for our purposes. I think UAW01-80 and UAW10-80 may be of use, not sure about wells further to west (e.g. LAW12-60). It seems as if Morton was relying mostly on Pristine monitoring wells for lower aquifer. Looks like there are 7 Pristine wells on the Morton property.

Hello Judy. As discussed, please see attached well logs and RFI text for the former Morton International facility.

-Scott
